INTRODUCTION

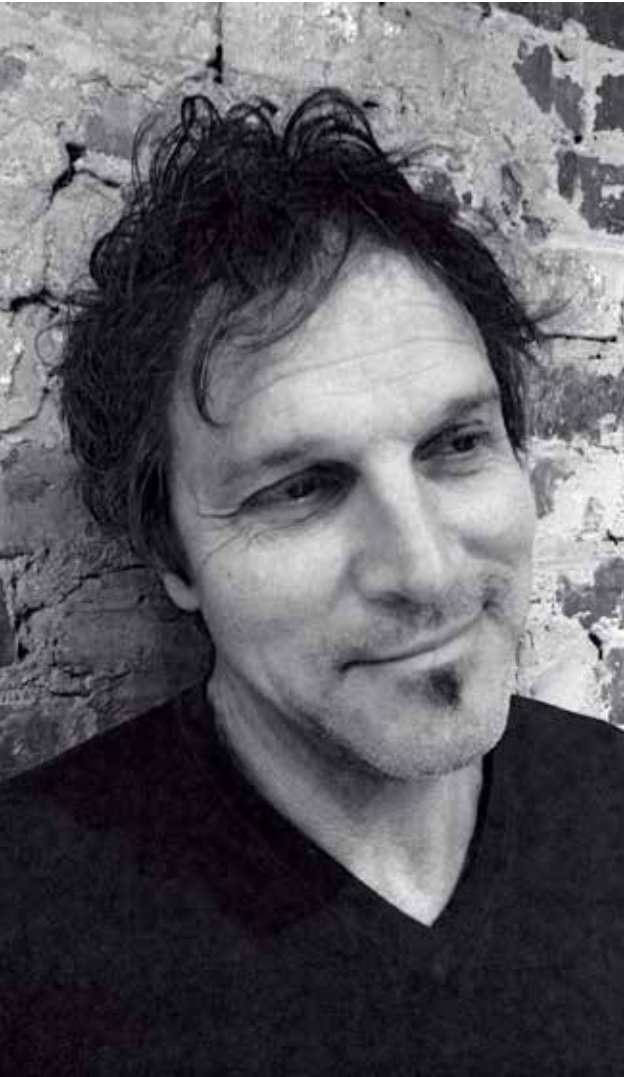

Welcome to the world of Tandus Centiva design. What constitutes the work presented in this product guide is an extraordinary collaboration and consensus of ideas, methods and materials.

Holistically interconnected, the products within speak to the commitment and purpose to innovate and manufacture floorcoverings that immediately communicate better, simpler, clearer form and function.

From the technical expertise, strength and recycled/recyclable core of our backing systems to the beautifully engineered construction of our face fibers and design layers, all of our product platforms—Powerbond® Modular, Broadloom, Woven and LVT—are developed to align toward today’s market segments. With these 21st century market segments, products need to work with one another aesthetically and in terms of intent, and how they must function in work, education and healing environments.

This is what drives us. Our extremely dedicated staff of designers, engineers, research technicians, manufacturers and world-renowned textile consultants succeed when customers desire our floorcoverings, as much for their beauty as for their ability to add meaning and longevity to the interior spaces they so skillfully design.

With pride and gratitude.

The Tandus Centiva Product Guide is our annual showcase piece for as many products as possible at time of print.

We are constantly updating our styles throughout the year, so please make sure you log onto tandus-centiva.com for the most up-to-date products.

Photos may not accurately depict color. Please order samples for exact product color.

GLOBAL

Tandus Centiva joined the global Tarkett family of companies in 2013. Tarkett is a world leader for innovative and sustainable solutions for flooring and sports surfaces. Almost 12,000 employees and 34 production sites serve Tarkett customers in more than 100 countries. The special requirements of our

multinational customers are served through strategically located manufacturing, distribution and sales support operations that offer our exceptional local service worldwide. Tarkett is committed to sustainable development and a circular economy, with an active and acknowledged eco-innovation strategy.

Tandus Centiva, a Tarkett company, creates innovative floorcovering solutions through our unique line of Powerbond®, Modular, Broadloom, Woven, LVT and MetalEdge™ transition products. Each of our product platforms offer coordinated styles, extensive color ranges and a variety of patterns and textures that enhance the appearance of any commercial environment. Tandus Centiva products are also designed to coordinate with a range of Johnsonite wall base and finishing accessories, providing the ultimate flooring experience across the Tarkett family of brands.

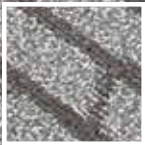

PLATFORMS

Tandus Centiva's unique line of Powerbond®, Modular, Broadloom, Woven and LVT works in tandem to create solutions for nearly every environment. These products offer a "fit-for-purpose" approach because we know each space has unique needs. Tandus Centiva is a single source for products that allows you to choose the correct platforms for your specific project.

DESIGN COLLABORATION

Suzanne Tick is the founder of Suzanne Tick Inc., specializing in materials brand strategy, product design, development and direction for commercial interiors.

Currently the Creative Director for Teknion Textiles and Design Consultant for Tandus Centiva, Suzanne has maintained a distinguished career as a textile designer and studio principal in New York City. At Teknion, Suzanne is responsible for the development and direction of textiles for seating and vertical applications. At Tandus Centiva, Suzanne has been a design consultant since 2005, and her designs in broadloom carpet, modular tile

and Powerbond have won numerous design awards and continue to break new ground in the industry.

In addition to her work in commercial interiors, Suzanne maintains a hand weaving practice and creates woven sculptures from repurposed materials. Her recent awards include a 2015 NeoCon Best of Year Gold Award and Interior Design's HiP Award for Tandus Centiva's "Indent." Suzanne was honored in 2013 with the IIDA Titan Award, given in recognition of significant contributions to the Interior Design profession.

Suzanne Tick Design™

DESIGN COLLABORATION

Designer Jhane Barnes uses a unique blend of science and art, incorporating fractals and algorithms into many of the products she designs. She began working with Tandus Centiva more than 19 years ago and developed the first modular products designed for random installation. Her latest creations “Maelstrom” and “2ndPower” are all about color — the number of colors and how they interact with each other.

Much of her career has been built on pushing boundaries whether in her men’s fashion collections, or textiles or furniture. Jhane loves learning about the machines that produce the products in order to get the most out of them. Doubling the amount of colors normally found in tufted carpets, her latest three flooring products really encompass the core of her design aesthetic.

DESIGN COLLABORATION

MARFA.DESTINATION MARFA, TEXAS

The unique backdrop of Marfa, Texas serves as one of the most unconventional sites for a design conference. Long known as the base of renowned sculptor Donald Judd and the home of many of his permanent installations, Marfa has become a sought-after destination for artists and designers from around the world that are interested in the intersection of art and architecture.

This annual gathering, hosted by Tandus Centiva, shares the unique qualities of Far West Texas... the amazing topography... the delicious culturally infused food... and of course behind-the-scenes tours of the Chinati Foundation and brilliant Marfa-based artists' studios to provoke insightful discussions and inspire talented designers from all over North America.

INSPIRATIONS AWARDS PARTNERSHIP

Sponsored by Tandus Centiva, the Inspirations Awards celebrate leadership in socially responsible design among commercial interior designers and architects. The 2015 award ceremony took place at NeoCon honoring winners: Columbus Metropolitan Library, designed by NBBJ, Columbus, Ohio in the built projects category and University of Kansas, designed by

BUILT PROJECT CATEGORY WINNER Columbus Metropolitan Library_NBBJ, Columbus, Ohio

STUDIOS architecture, Lawrence, Kansas, in the practice-based category. The competition was judged by Krystal Lucero, IIDA, Senior Interior Designer of Edwards+Mulhausen Interior Design, Austin; Sara Lundgren, AIA, Associate Principal of Krueck & Sexton Architects, Chicago; Sascha Wagner, IIDA, President and CEO of Huntsman Architectural Group, San Francisco.

DESIGN COLLABORATION

PUBLICOLOR

Publicolor is a youth development not-for-profit that has a multi-day, multi-year program continuum, which uniquely engages disaffected students in their education. Their gateway program empowers students through commercial painting and an applied learning model to transform their institutional looking schools into warm, welcoming student-centric environments. Other programs involve students in planning and preparing for college and career, while teaching strong and transferable work habits. The Summer Design Studio teaches at-risk teens literacy and math through product design. S.A.T. preparation and design classes are held on Pratt Institute’s Brooklyn campus so students can experience the reality of college, while their afternoons are spent painting under-resourced but vital neighborhood facilities.

When you specify and purchase a Suzanne Tick product for a project in education, you are helping contribute to Publicolor’s Summer Design Studio. Suzanne Tick Inc. and Tandus Centiva have each committed to donate \$.10/sq. yd. from these sales, totaling a \$.20/sq. yd. donation. Antron® Carpet Fiber has also committed to donate an additional \$.10/sq. yd. when the Suzanne Tick Inc. design is made using Antron®. With over 40 STI designs to choose from, your K-12 and higher education specifications and purchases will positively impact the lives of Publicolor students.

For more information on other ways you can get involved and support Publicolor, visit their website at publicolor.org/joinus.

HERITAGE OF INNOVATION

Our heritage of innovation compels us to challenge conventional pursuits by fostering invention. But only when inventions become effective solutions accepted by markets, businesses and society are they truly innovative.

1803 Established the import of woven carpet into North America

1967 Introduced Powerbond®— the industry's first hybrid resilient sheet floorcovering

1969 Introduced modular carpet to North America

1994 Launched the first ever full-scale flooring recycling program

1996 First modular products designed for random installation with fashion designer Jhane Barnes — "Mosaics in Tile" collection

2000 Introduced Stratatec® 5/64th gauge tufting machine that provides double scroll pattern on pattern design

2004 Launched ethos®, the first high performance carpet backing made from recycled PVB, the film polymer found in windshields

2007 First carpet company to partner with Cargill® to use a bio-based polyol cushion backing, ErgoStep®, for broadloom carpet

2008 Closed the loop on production water at our Florence, AL plant

Achieved ISO 14001 at US carpet facilities

2009 Developed first sheath core bio-based fiber (Genesis)

2010 Produced product portfolios that are 100% reusable and recyclable

Centiva acquired by Tarkett

2011 Introduced Sero®, a design technology that emphasizes the design of the floor plane rather than the floorcovering

Launched Virtual View, a revolutionary online rendering tool

2012 Antron® MATCH™ Marketing Innovation Award — Grand Prize for Sustainable Portfolio System

The Antron® Carpet Fiber Sustainable Flooring Performance Award — Grand Prize for the sixth consecutive year

Tandus acquired by Tarkett, the worldwide leader in innovative flooring and sports surface solutions

2013 *Building* magazine Innovation Award — Grand Prize for Flooring Solutions, for the Big City/Bright Lights Collection

Tandus and Centiva merged to provide value-added, coordinated solutions for the contract interiors market

2014 Celebrated 20 years of recycling

Best of NeoCon winner for Substrate — Gold in Hard Surface

First American carpet manufacturer to achieve Cradle to Cradle Certified™ Silver v3.0 for ethos® Modular tile

2015 Best of NeoCon winner for Indent— Gold in Broadloom

Best of NeoCon winner for Avant— Silver in Modular

Surpassed 284 million pounds of flooring and waste that was recycled into new floorcoverings

Achieved highest moisture allowance in the industry with TandusTape+™ and ethos® Modular

DESIGN INNOVATION

ETHOS®

MOISTURE

We understand that finding a floor that properly handles concrete moisture can cause huge hurdles in design. ethos creates a powerful barrier for protection against moisture and is durable enough for nearly any subfloor condition. And with TandusTape+™ installation is free-lay, faster and longer lasting with low VOCs.

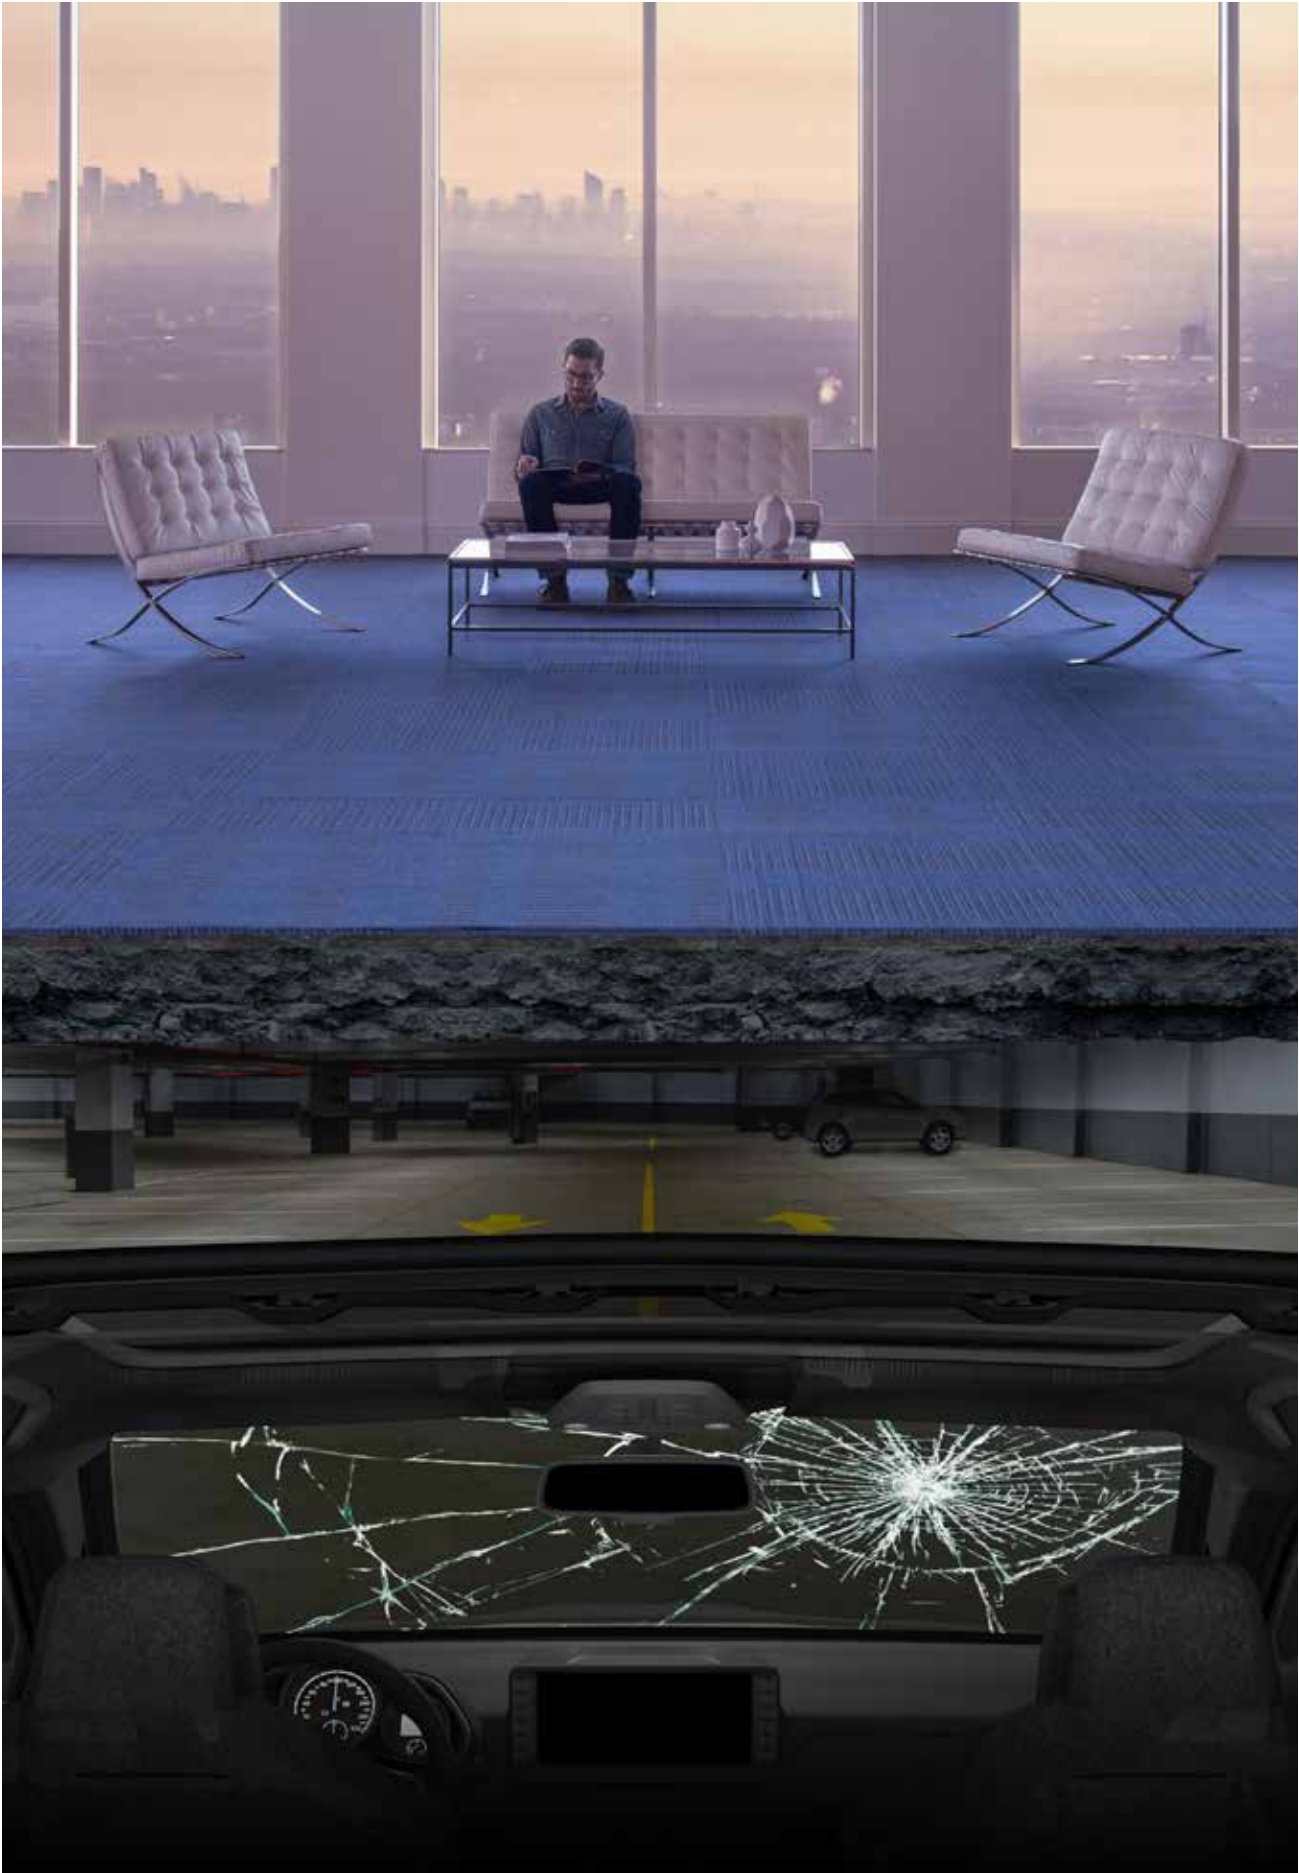

PVB

To make ethos, we were the first to harness the potential of PVB from recycled windshields and safety glass over 10 years ago. A high-performance alternative to traditional carpet backing materials, ethos is time-tested and maintains durability for decades using responsibly sourced, recycled materials.

INDOOR AIR QUALITY

ethos was designed with human health as a top priority. We use safe chemistry and people-friendly solutions to create a low VOC flooring that lets you breathe easy. ethos Modular is the first of its kind in North America to be Cradle to Cradle Ceritifed™ Silver v3.0.

[When installed with TandusTape+, stands up to subfloor conditions ≤ 15 lbs MVER, ≤ 98% RH and ≤ 11 pH. Passes 10,000 impact moisture penetration testing.]

"Hybrid resilient floorcovering is the perfect design solution for schools. It's healthier, a unique design medium and fiscally responsible. That's why I believe in Powerbond."

I'M A BELIEVER

IRENE NIGAGLIONI
Partner, PBK

We have always believed in Powerbond, and like to publicly recognize the other "Believers" that have compelling Powerbond stories.

Powerbond hybrid resilient sheet flooring is a heterogeneous construction of nylon and closed-cell cushion. The cushion and nylon are fused together through heat and pressure creating a floorcovering that is integral and inseparable. The innovative closed-cell cushion is the DNA of Powerbond and the single greatest component to its performance and design capabilities. With installations performing for more than four decades, numerous design and performance awards, Powerbond offers unique attributes perfect for any commercial interior environment.

PLANKS

DESIGN INNOVATION

PLANKS

Our 9"x 36" planks, along
with other modular tile sizes,
are quick and easy to install
with TandusTape+.™

EVANESCE_Maximum Blue_Page 222, ASCEND_Licorice, Open Ocean_Page 214_Shown in 9"x 36" Herringbone

DESIGN INNOVATION

PLANKS

The 9"x 36" plank allows for greater flexibility in designing the floor plane.

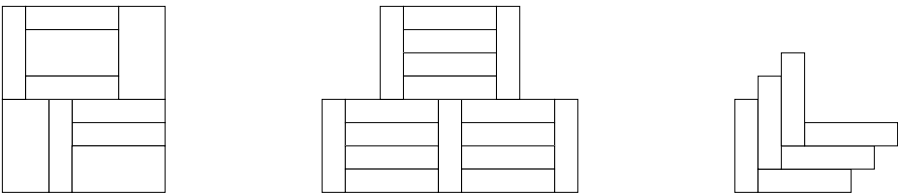

Our plank size options come with ethos® backing, a PVC-alternative made from the film in postconsumer windshields and safety glass.

ethos® planks have 27-52% overall recycled content with at least 27% postconsumer content, and are 100% recyclable through our Restart® Program.

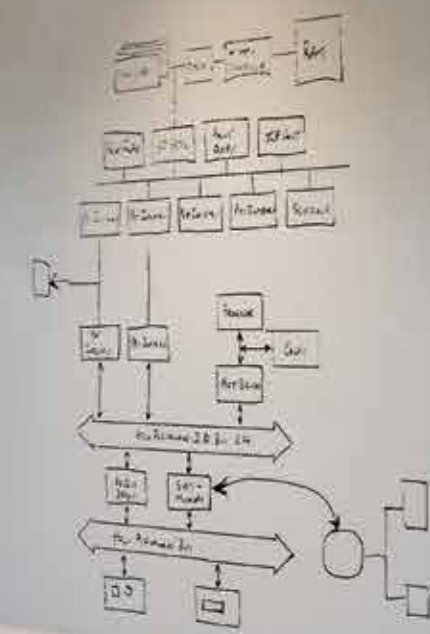

Tandus Centiva is the first American modular carpet manufacturer to be Cradle to Cradle Certified™ Silver v3.0 for ethos®.

Use with TandusTape+™ for easy installation of floating floors.

- Can be installed at MVER ≤ 15.0 lbs., PH ≤ 11.0 and In-Situ/RH ≤ 98%
- Odor free
- Sticks to the tile, not the floor
- Low VOCs

Suzanne Tick Design™

DESIGN INNOVATION

PLANKS

Combine sizes for
variations in pattern designs.

9"x 36", 18"x 36", 24"x 24", 36"x 36"

DESIGN INNOVATION

SERO®

Design is no longer limited to a square medium with the pattern repeating tile after tile. The Sero design approach creates *purposeful variations* with colors, patterns and textures that flow, pool and shift from tile to tile, culminating in a *unified floor design*. Sero design products eliminate pattern fatigue and create a floor as unique as the space in which it is installed.

Now, modular is more than just a square, as we offer many of the Sero designed styles in 9" x 36", 18"x 36" and 24"x 24" tiles.

SERO® SAMPLES

For styles designed using Sero design technology, Tandus Centiva includes room scene images on the back of each sample. The images are created with our Virtual View tool found on tandus-centiva.com.

For styles that are offered in both Powerbond® and Modular platforms, a room scene of each, in the color sampled, will be included on the back.

SUSTAINABLE PORTFOLIOS

AWARD-WINNING PORTFOLIOS

Tandus Centiva won the 2012 GreenStep Environmental Award from *Floorcovering Weekly* and the Antron® Match™ Award Grand Prize for its completely reusable and recyclable portfolio system. Tandus Centiva was the first in the flooring industry to eliminate glue and non-recyclable materials, providing a portfolio that can be repeatedly reused and then recycled at the end of its useful life.

SUSTAINABILITY

We have received **259,480** portfolios back in our ReStart® Program.
72,723 have been put back on the shelf.
182,658 have had their materials recycled and kept out of the landfills.

DESIGN INNOVATION

COORDINATES

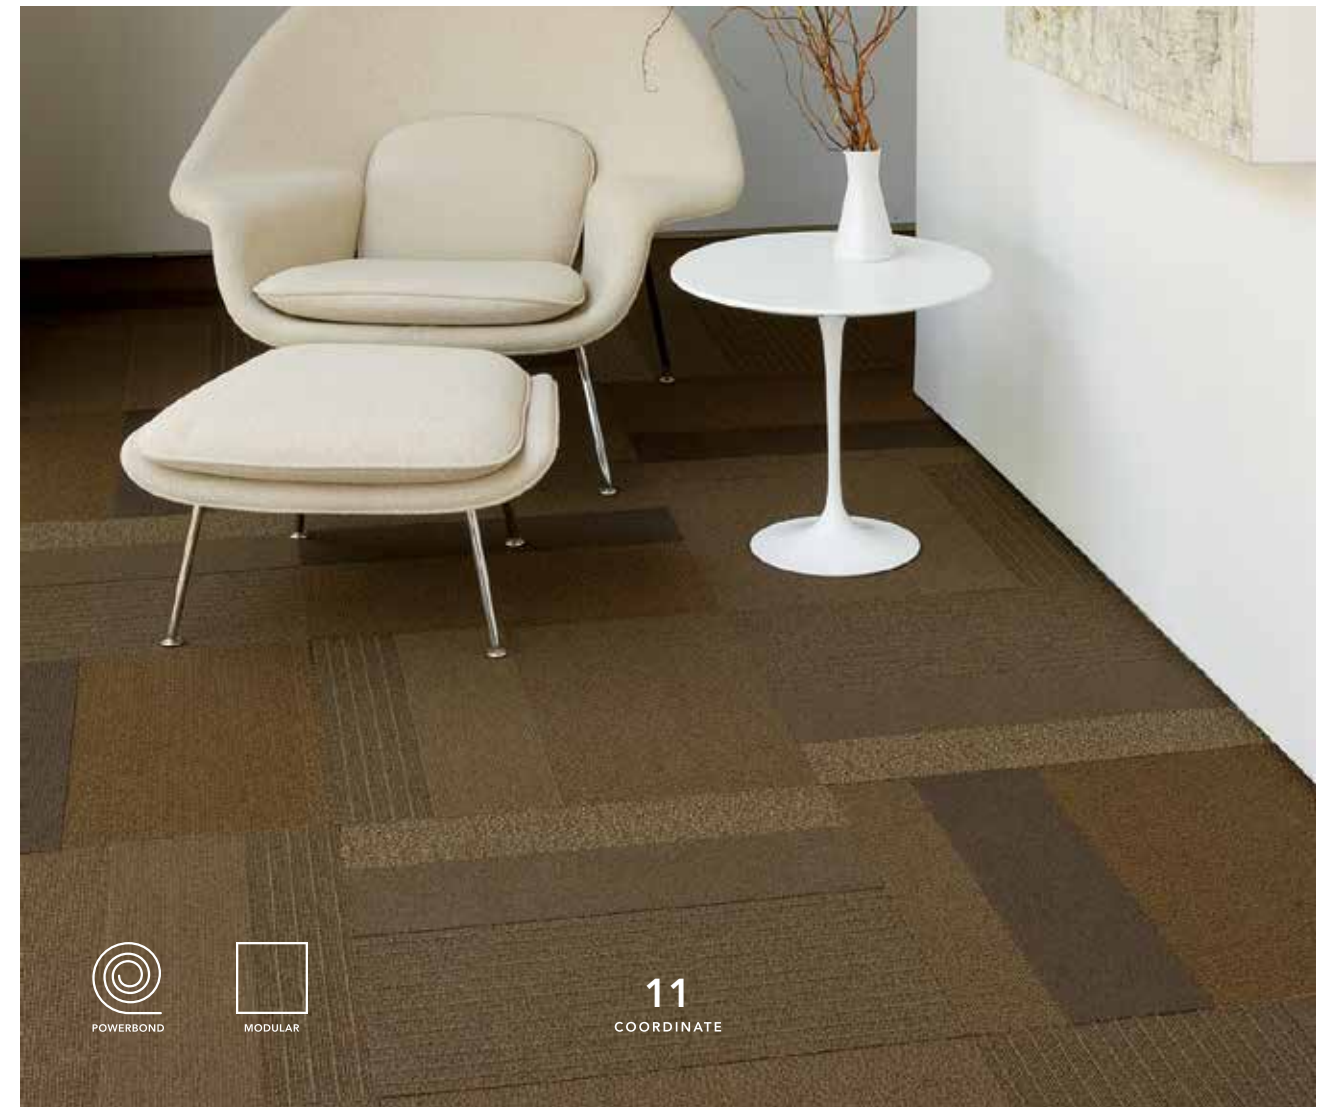

Coordinate Groups are identified on product portfolios and on tandus-centiva.com by a specific number or as a Texture or Solid. Textures and Solids coordinate with nearly every style.

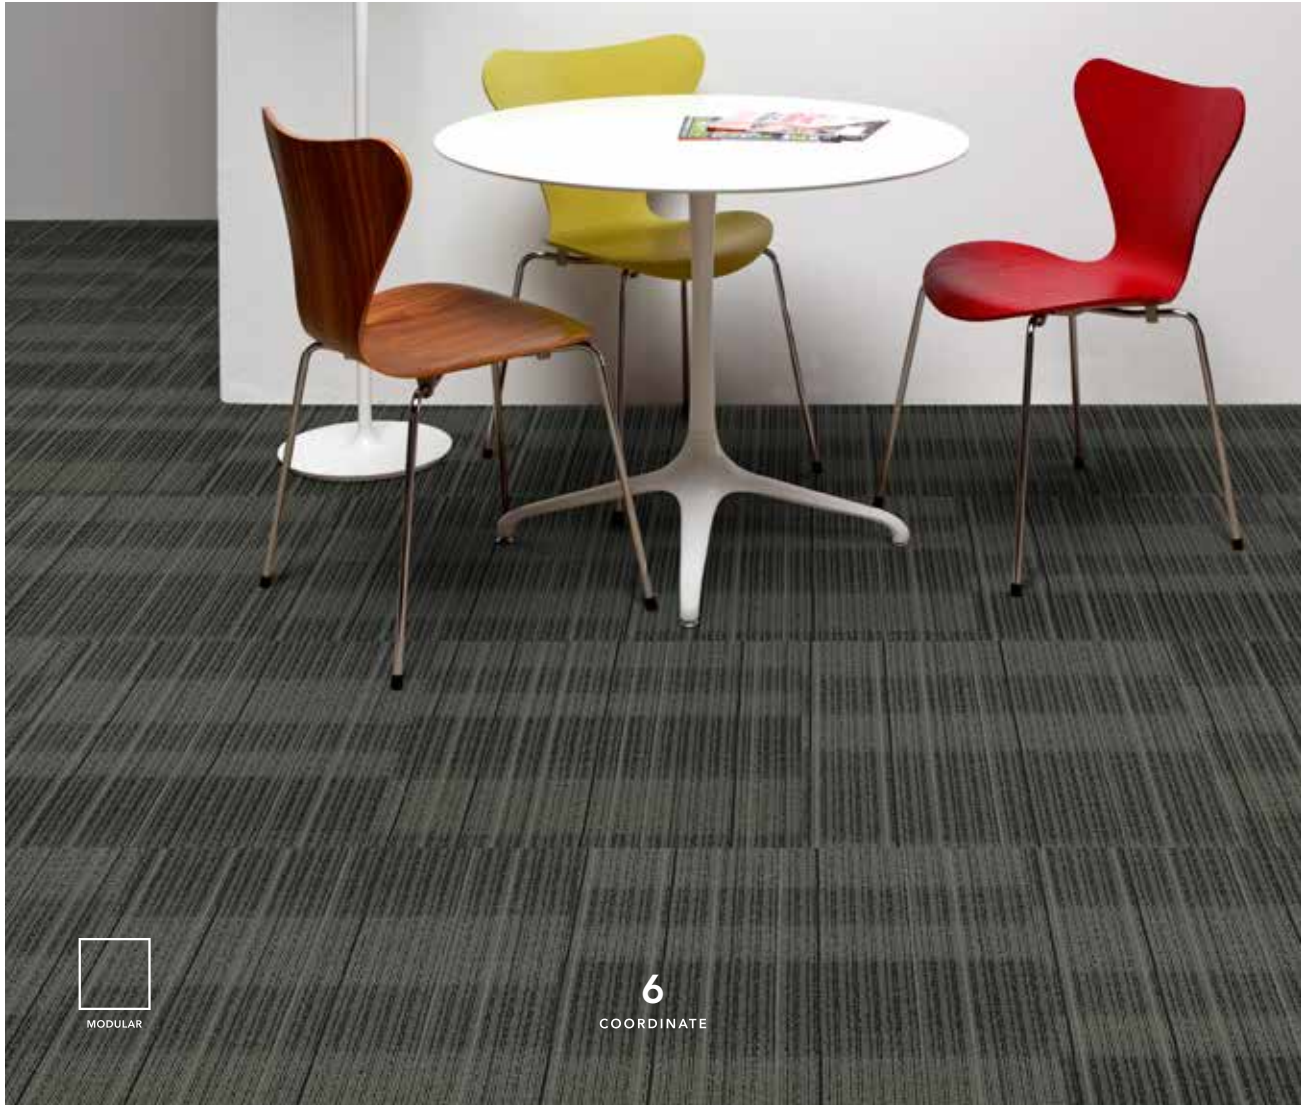

Coordinates are based on color, making the decision to use various styles within a project easy by selecting products within the same Coordinate Group. Styles can span product platforms of Powerbond® Modular, Broadloom and Woven to offer ample choices when designing.

LANDFORM COLOURS_Cast Concrete_Page 232

062 NONCONFORM II_Ink Ribbon_Page 172

STREET LIFE_Lights Out_Page 247

ECHO_Cirrus Cloud_Page 270

LUMEN_Cirrus Cloud_Page 236

Collections consist of styles that have been designed together with the same motif. To simplify the design workflow, styles within a Collection will be part of the same Coordinate Group.

INTERCONNECTED GROUP

Everything we touch is made of components, parts or units. To achieve great things, we work together, compiling each of our unique knowledge bases to compose, love, build and create. Everything we do is interconnected. The series embodies this concept by its eclectic, yet sophisticated, nod to unconventional patterning. Both pattern and texture evolve across the width and the length, creating completely different units of color and pattern when used in multiple platforms, mixed, cut into tile and reassembled onto the floor plane. This is varied togetherness. This is Interconnected.

THIN LINES COLLECTION

There is a quiet energy in simplicity. Taking a nod from class geometry, Thin Lines brings sophisticated line work to the next level, intentionally using pattern as a way to designate and connect spaces. Using a classic neutral palette juxtaposed with intense color play, the installation methods are as limitless as your imagination.

FOLKLORE COLLECTION

The Folklore collection is inspired by the master craftsman with the hand of the artisan in every detail. This collection evokes the pierced stonework or architectural masterpieces such as the Alhambra in Spain. Its soft geometry complements large and small spaces. Piazza references the beauty of inlaid marble floors found in the villas of ancient Rome. Its large scale is dramatic yet timeless. Florentine celebrates the hand of medieval needlework and Toulon features flowing designs of English crewelwork.

WOVEN MATRIX COLLECTION

Suzanne Tick pushes woven carpet technology to new levels with an elegant use of texture and volume. A textural striae that combines the qualities of a plush woven with tectonic structure, Cable Weave is created by multi-ply bundles of yarn with high and low luster. Pebble Mesh is a highly textured coordinate that uses similar yarn technology to create two-tone color combinations.

IMAGINATIONS™ CUSTOM FLOOR DESIGN

The Imaginations Custom Floor Design program translates your vision onto the floor using Powerbond® or LVT. Whether it's an abstract design, wayfinding, branding, school spirit or mascot design, our products fulfill your needs. Tandus Centiva offers design capabilities that are unmatched by any other in the industry. Tandus Centiva's Powerbond and LVT are precision cut with an ultrasonic knife ensuring the most intricate designs

with no entry or end points. Powerbond seams are permanently welded together, and the textile wear layer eliminates seaming compounds for a crisp clean design. Inlay designs are created by the architect, designer or owner as part of the floor plan and cut by our in-house Imaginations team using CAD technology. The custom design is installed on site by the flooring contractor for both Powerbond and LVT.

IMAGINATIONS™ CUSTOM FLOOR DESIGN

Want something more? If you can imagine it then we can translate it onto the floor. Tandus Centiva's Imaginations Custom Floor Design program is used for more intricate and detailed designs such as logos, mascots, unique images or repeated designs (animals, stars, flowers). Fabricated at our manu-

facturing facilities, shipped to the job site and inset by the flooring contractor. The Tandus Centiva Imaginations Custom Floor Design program is a first in the flooring industry, and we are the only company to offer this unique service. Contact your Tandus Centiva account executive to get started.

SIGNATURE™ CUSTOM

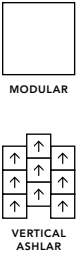

Custom products are as personal as an individual's signature. Tandus Centiva's custom products are unique in design and construction and require the same personal attention to detail and quality afforded to all our products. Like one's signature, this high level of service conveys a promise.

Signature Custom, by Tandus Centiva, is our commitment to keep that promise. Custom products are available on Powerbond® Modular, Broadloom and Woven styles. Minimums apply. Contact your Tandus Centiva account executive for details.

Tandus Centiva, a Tarkett company, creates innovative floorcovering solutions through our unique line of Powerbond®, Modular, Broadloom, Woven and LVT products. With industry-leading product design, unrivaled service and a commitment to environmental and social stewardship, Tandus Centiva provides the ultimate flooring experience.

PRODUCT COORDINATES – TRANSITION

METAEDGE™ COLLECTION

MetalEdge provides a transition solution and finish detail for any commercial space. It is offered in three aesthetically pleasing and tastefully refined systems, each engineered and colored to work with a vast array of Tandus Centiva soft and hard surface product platforms. Please contact your Tandus Centiva account executive for details.

* These MetalEdge™ transition colors are metallic and may not be accurately represented. Please contact your Tandus Centiva account executive for details or to order samples, 800.248.2878.

STEEL 00179*

BRASS 00176*

PRODUCT COORDINATES

The coordination of soft and hard surface products, MetalEdge™ transition, wall base and accessories from Johnsonite, a Tarkett company, allows for design flexibility and a range of offerings that enables our customers to choose exactly the product they need — moving beyond a product choice to a design solution.

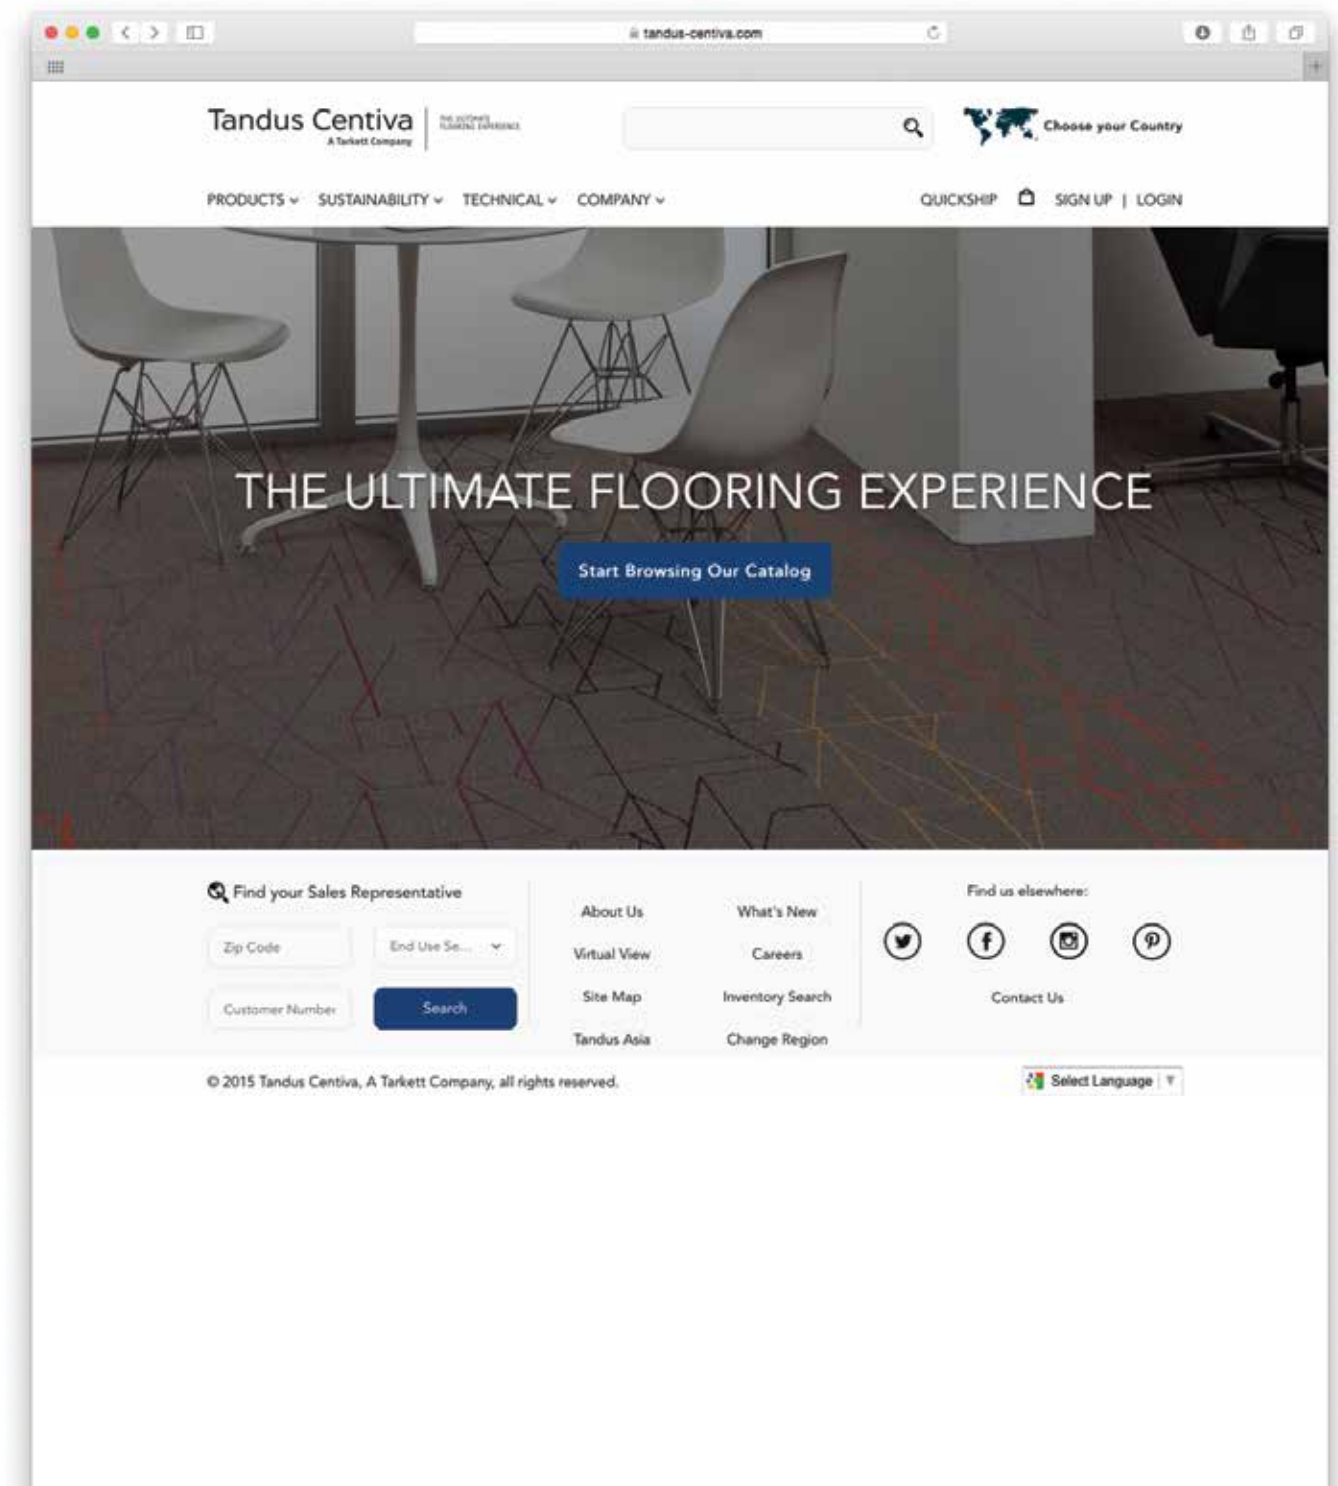

PRODUCT COORDINATES – JOHNSONITE

The following colors have been selected from the Johnsonite palette as complements to Tandus Centiva products. Available in a broad offering of wall base and finishing accessories, each can provide the necessary finishing touches to any commercial space. Please contact your Johnsonite representative for details, 800.899.8916.

In 2015 Tandus Centiva launched a new, multi-platform website, tandus-centiva.com. This integrated site features an emphasis on design, user engagement and disseminating information easier and faster. The design boasts high-quality product photography throughout, highlighting our five product platforms – Powerbond®, Modular, Broadloom, Woven and LVT.

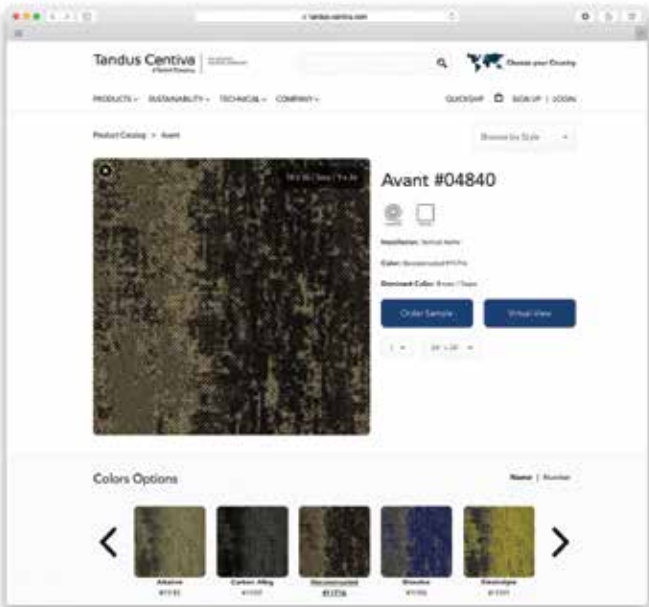

PRODUCT CATALOG

The Product Catalog and Virtual View tools are easily accessible from the homepage of tandus-centiva.com. The user can browse by using the drop-down menus to search by style name, collection name, coordinate group,

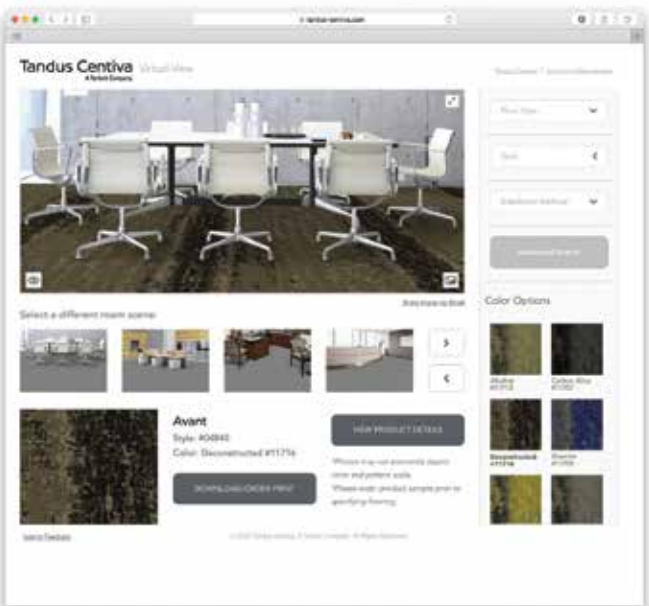

product platform, pattern style and color. The Advance Search drop-down also allows for more specific searches such as pattern scale, dye method and price. Users also have Quickship availability and recycled content options.

Select a style to see the installation image and color line.

Select a color to see a close-up view of the pattern and texture.

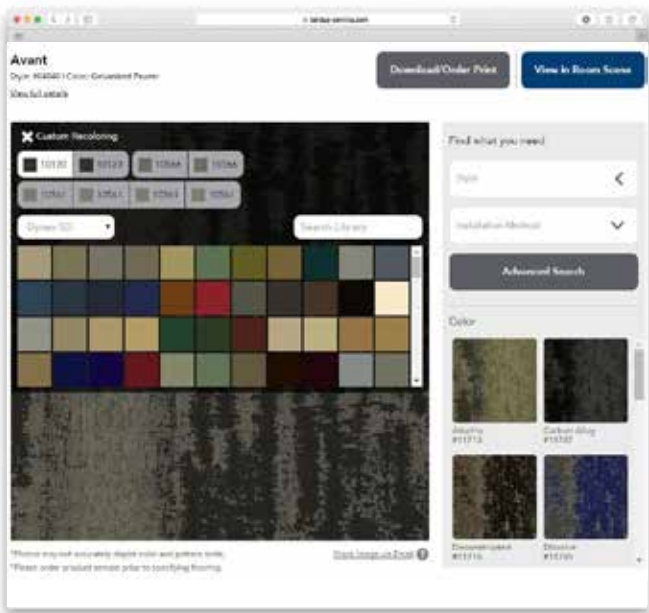

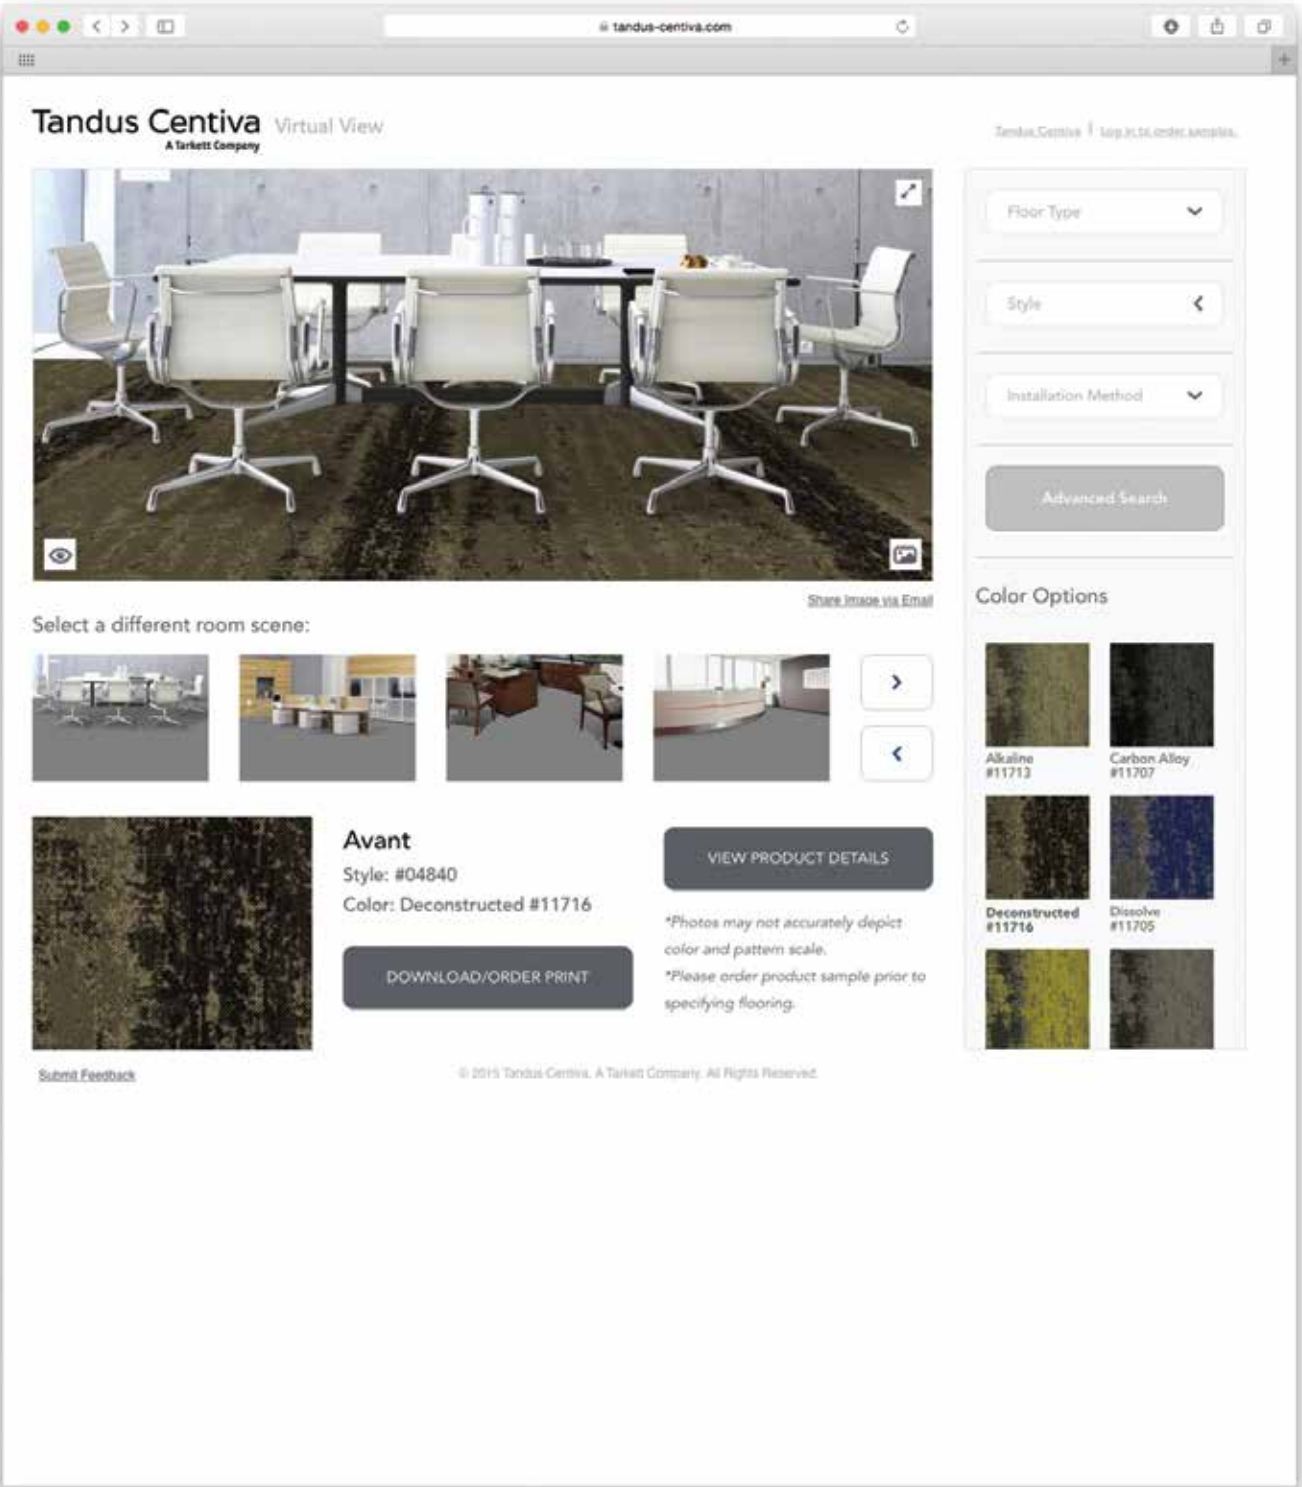

Select 'Virtual View' to see styles installed in room scenes where you have the ability to select room scene, color and installation method.

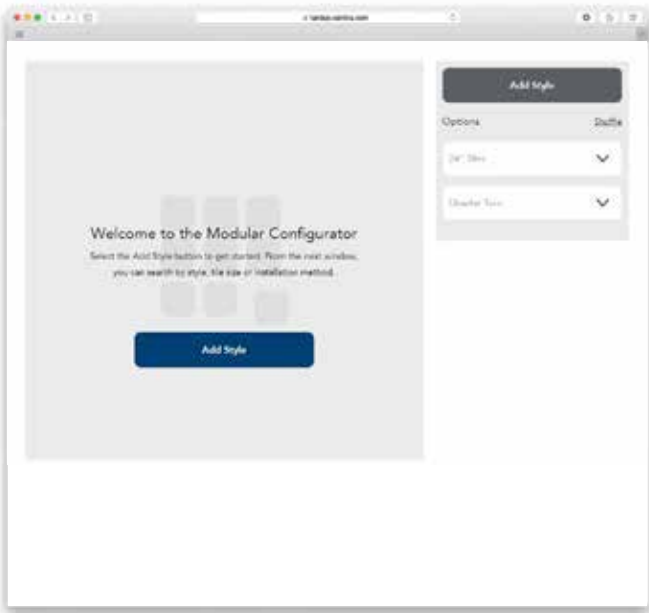

VIRTUAL VIEW

In 2016, Tandus Centiva upgraded Virtual View to include a yarn recoloring tool and tile configurator. Users can now recolor our soft surface products using our extensive yarn library. From customizing an accent stripe to reimagining a style's

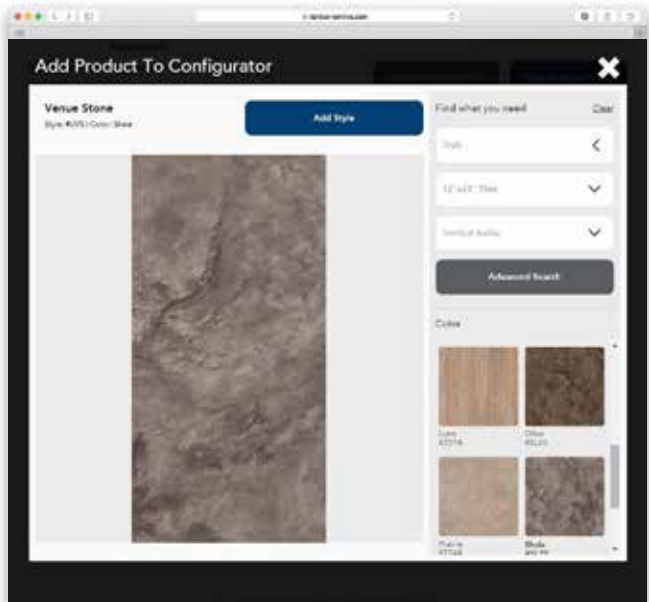

entire color palette, this tool allows you to make a product your own. The tile configurator allows the user to mix soft surface and LVT or mix two or more styles, colorways and sizes in the same floor plane. The floor is your playground.

Select color choices for style customization.

Select the Configurator to create a unique floor design.

Select a mix of product platforms or various styles, colorways and sizes.

ENVIRONMENTAL STORY

For more than 40 years, Tandus Centiva has been examining all the ways to be a better corporate citizen and environmental steward — and then taking actions that lead to demonstrable, meaningful, quantifiable results. There is no quick way to sustainability. We realize this is a long term, continuous process — and we are up to the task. We will continue to explore innovative solutions because at Tandus Centiva we are focused on where we are going, what we are creating and eliminating our environmental footprint.

RESTART®

Since the early 1990's, Tandus Centiva has been collecting vinyl-backed flooring from the marketplace to recycle back into flooring. We were the first in the industry to reclaim and recycle soft surface flooring from the waste stream, the first to third-party certify a recycled content product and the industry's first to third-party certify a closed-loop reclamation and recycling program. Each day we recycle up to 90,000 pounds of flooring and waste, totaling more than 284 million pounds to date.

In order to sustain the recycled content of our products, we need your help in reclaiming material. The process is easy. Just contact your Tandus Centiva account executive and leave the rest to us.

HERE IS HOW IT WORKS:

Vinyl-Backed Carpet

- Call your Tandus Centiva account executive at 800.248.2878 and request a Material Return Form
- Submit a sample of product for approval
- Package materials securely for handling with a lift truck
- Ship materials with Material Return Request Number
- Notify us 24 hours before delivery
- Tandus Centiva receives the materials for reuse or closed-loop recycling

It's that easy!

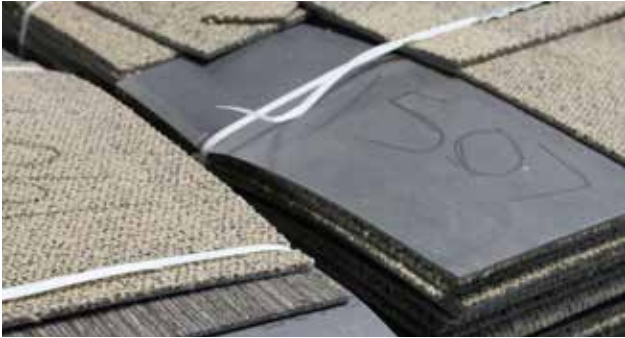

Together we can make a significant environmental impact by keeping these materials out of the waste stream.

Thank you in advance for your assistance.

IS OUR COMPETITORS' PRODUCT(S)
WE RECYCLE FOR THE INDUSTRY

RESTART®

Tandus Centiva’s ReStart® Program works to recover samples and product portfolios from the marketplace after they have served their purpose. We accept competitive vinyl sample materials in addition to our own. By reusing or closed-loop recycling the sample materials, we’re able to extend the life of the materials and keep them out of landfills and incinerators.

The recovery process is easy. Just contact Tandus Centiva and leave the rest to us.

HERE IS HOW IT WORKS:

Physical Samples

- Save the packaging you received the samples in
- Call customer service at 800.248.2878
- We will send you a prepaid label to affix to the packaging
- Call your carrier for pick up
- Tandus Centiva receives the materials for reuse or recycling

Same process as above for competitive samples

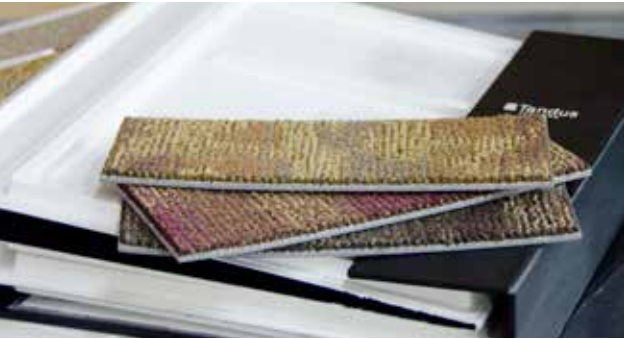

Product Portfolios

- Call customer service at 800.248.2878
- We will send you a prepaid label or packaging
- Pack materials with prepaid label
- Call your carrier for pick up
- Portfolios will be returned to the closest Tandus Centiva regional office for reuse

It’s that easy!

Together we can make a significant environmental impact by keeping these materials out of the waste stream.

Thank you in advance for your assistance.

CONSTRUCTION OPTIONS

All Tandus Centiva Powerbond® and Modular options are 100% closed-loop recyclable through our ReStart® Program and do not contain pesticides (antimicrobials) as part of our initiative to reduce chemicals.

We are also extending the warranties of our Powerbond and Modular products to a non-prorated lifetime limited warranty. For further details, view our warranties at tandus-centiva.com or contact our Tandus Centiva Technologies team.

Powerbond® Cushion (RS or Non RS) — A hybrid resilient sheet floor-covering. Closed-cell cushion contains up to 19% postconsumer recycled content. Overall product contains 7-28% recycled content with a minimum 7% postconsumer. Benefits include: superior performance in extreme traffic, energy savings (good thermal attributes), reduced slip/fall injury, excellent acoustic control and wall-to-wall impermeable moisture barrier, lifetime limited warranty.

Super-Lok® was developed to provide customers with superior attributes to the standard industry backing systems. Super-Lok is the benchmark backing on many of Tandus Centiva’s broadloom carpets and has met or exceeded all industry required testing. Super-Lok provides the following attributes — enriched synthetic latex, improved protection against edge ravel, improved protection against delamination, low Volatile Organic Compounds (VOC), excellent tuft bind, excellent rollability, easy to install, 10 year warranty.

LifeLONG® is a high-performance Tandus Centiva commercial broadloom backing system developed by Tandus Centiva Technologies. LifeLONG was developed to meet the demanding requirements of the commercial marketplace. LifeLONG is an available option for all styles constructed with the Super-Lok Backing System. In addition to providing the same attributes, LifeLONG also offers the following characteristics and benefits — recycled content (for LEED™ Certification), 20 year non-prorated warranty, improved lamination strength, increased edge ravel warranty, increased lamination warranty, passed Modified British Spill Test, maintains flexibility over a wide range of temperatures.

ErgoStep® backing is a high density polyurethane cushion. It was developed to provide customers with a product to satisfy installation requirements such as extra cushion comfort, and noise reduction. ErgoStep Backing is available for all Tandus Centiva broadloom products and provides the following attributes — cushion comfort, reduced fall impact, extended product life, minimized edge ravel, moisture management, enhanced thermal properties, and flexibility over a wide range of temperatures. ErgoStep contains a minimum of 30% postconsumer recycled content and overall product postconsumer recycled content of 8-10%. ErgoStep with BiOH™ adds 8.6% of bio-based content derived from soy bean oil. This custom backing option is available by special order and minimum yardage is required. 10 year warranty.

ethos® Modular (Non RS) — Made from recycled non-chlorinated polymers commonly used in windshields and other types of safety glass. Secondary backing contains 50% recycled content with a minimum 50% postconsumer, overall product contains 27-52% recycled content with a minimum 27% postconsumer, lifetime limited warranty.

ER3® Modular (Non RS) — Industry’s first 100% recycled content secondary backing with a minimum 70% postconsumer, overall product contains 45-65% recycled content with a minimum 20% postconsumer, lifetime limited warranty.

Flex-Aire™ Cushion Modular (Non RS) — Affordable closed-cell cushion for enhanced comfort and acoustic properties. Secondary backing contains 35% preconsumer recycled content. Overall product contains 21-38% recycled content with a minimum 5% postconsumer, lifetime limited warranty.

Crossweave® Woven technology was engineered for exceptional long-term performance. Tandus Centiva’s Crossweave looms weave pile and backing yarns together to create one integral unit. Pile yarns are interlaced to provide woven carpets’ famous resistance to delamination and yarn zippering. Every woven broadloom is constructed and crafted with superior performance features including exceptional seaming properties and dimensional stability, 15 year warranty.

CrossCushion® Woven provides added comfort underfoot and extends the life cycle of Crossweave Woven Technology. CrossCushion is an attached high-density polyurethane cushion. In addition to the attributes inherent in Crossweave woven construction, CrossCushion offers the following characteristics and benefits — reduced fall impact, enhanced acoustics, moisture impediment, reduced crushing, enhanced thermal properties. CrossCushion contains a minimum of 30% postconsumer recycled content and overall product post-consumer recycled content of 8-10%. CrossCushion with BiOH™ adds 8.6% of bio-based content derived from soy bean oil. This custom backing option is available by special order and minimum yardage is required. 15 year warranty.

RS is a peel & stick installation method. It is the lowest VOC adhesive system in the industry.

TANDUSTAPE+™

A FLOATING INSTALLATION SYSTEM FOR MODULAR CARPET

TandusTape+™ is for use with ethos® Modular and Flex-Aire™ Cushion Modular carpet.

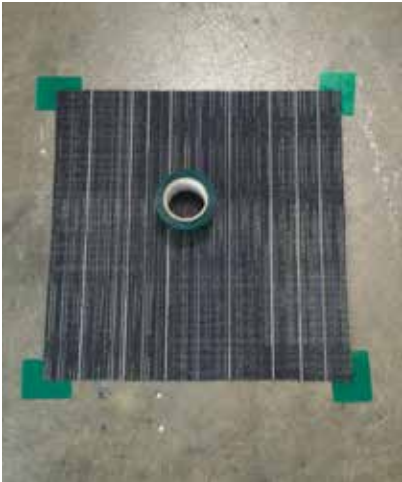

- TandusTape+ can be installed at MVER ≤ 15 pounds, pH ≤ 11 and In-Situ/RH ≤ 98% for ethos Modular and MVER ≤ 5 pounds, pH ≤ 9 and In-Situ/RH ≤ 80% for Flex-Aire Modular
- Odor free
- Sticks to the tile, not the floor
- Low VOCs
- Faster Installation

Supplied in self-wound perforated rolls with an outer diameter of 5" on a 3" inner diameter.

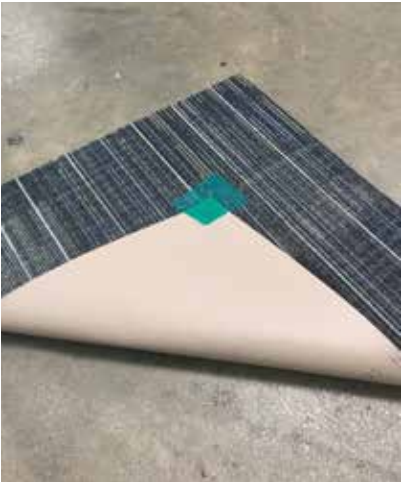

- Each tape unit measures 3" by 4" ± 0.125" with notched perforations between each unit.
- There are 324 units per roll with a coverage area of 144 square yds/roll installed with 24" tile.
- Packaged from 1 to 16 rolls per box with a minimum order quantity of 1 roll.
- The tape unit is centered at the corner of the tile as to engage the inner section of the two adjacent and one opposing tile corners (see installation instructions for details).

TO SEE OUR
TANDUSTAPE+ VIDEO VISIT
TANDUS-CENTIVA.COM.

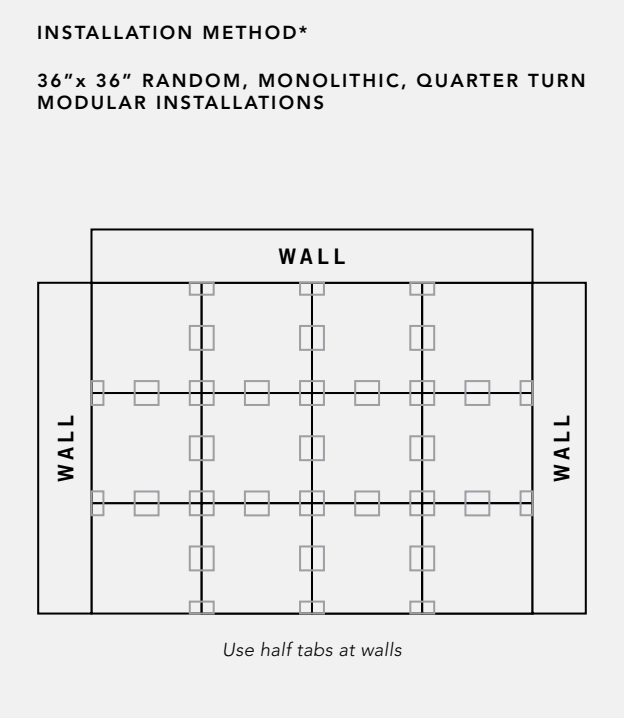

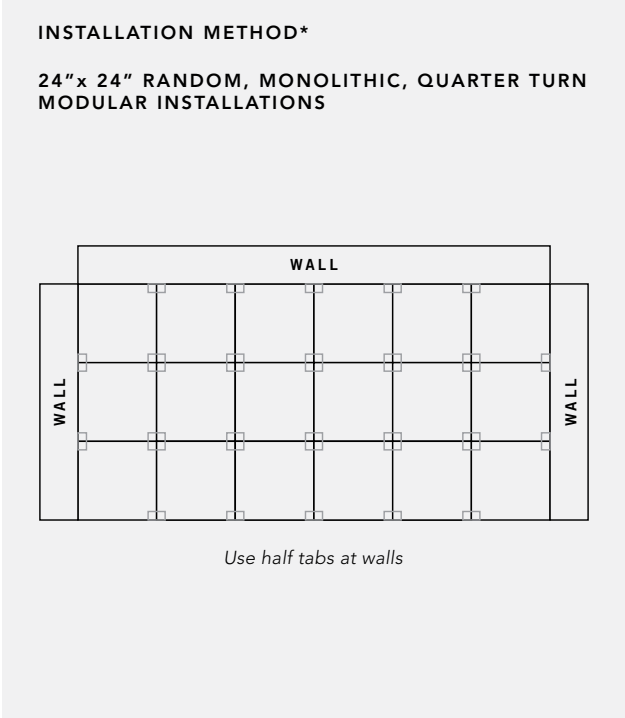

One piece is applied to one corner of each successive modular tile.

Installation is very simple and free of any excessive waste. Self-wound rolls have no release liner to dispose of, nor the typical waste associated with the use of bucket adhesives.

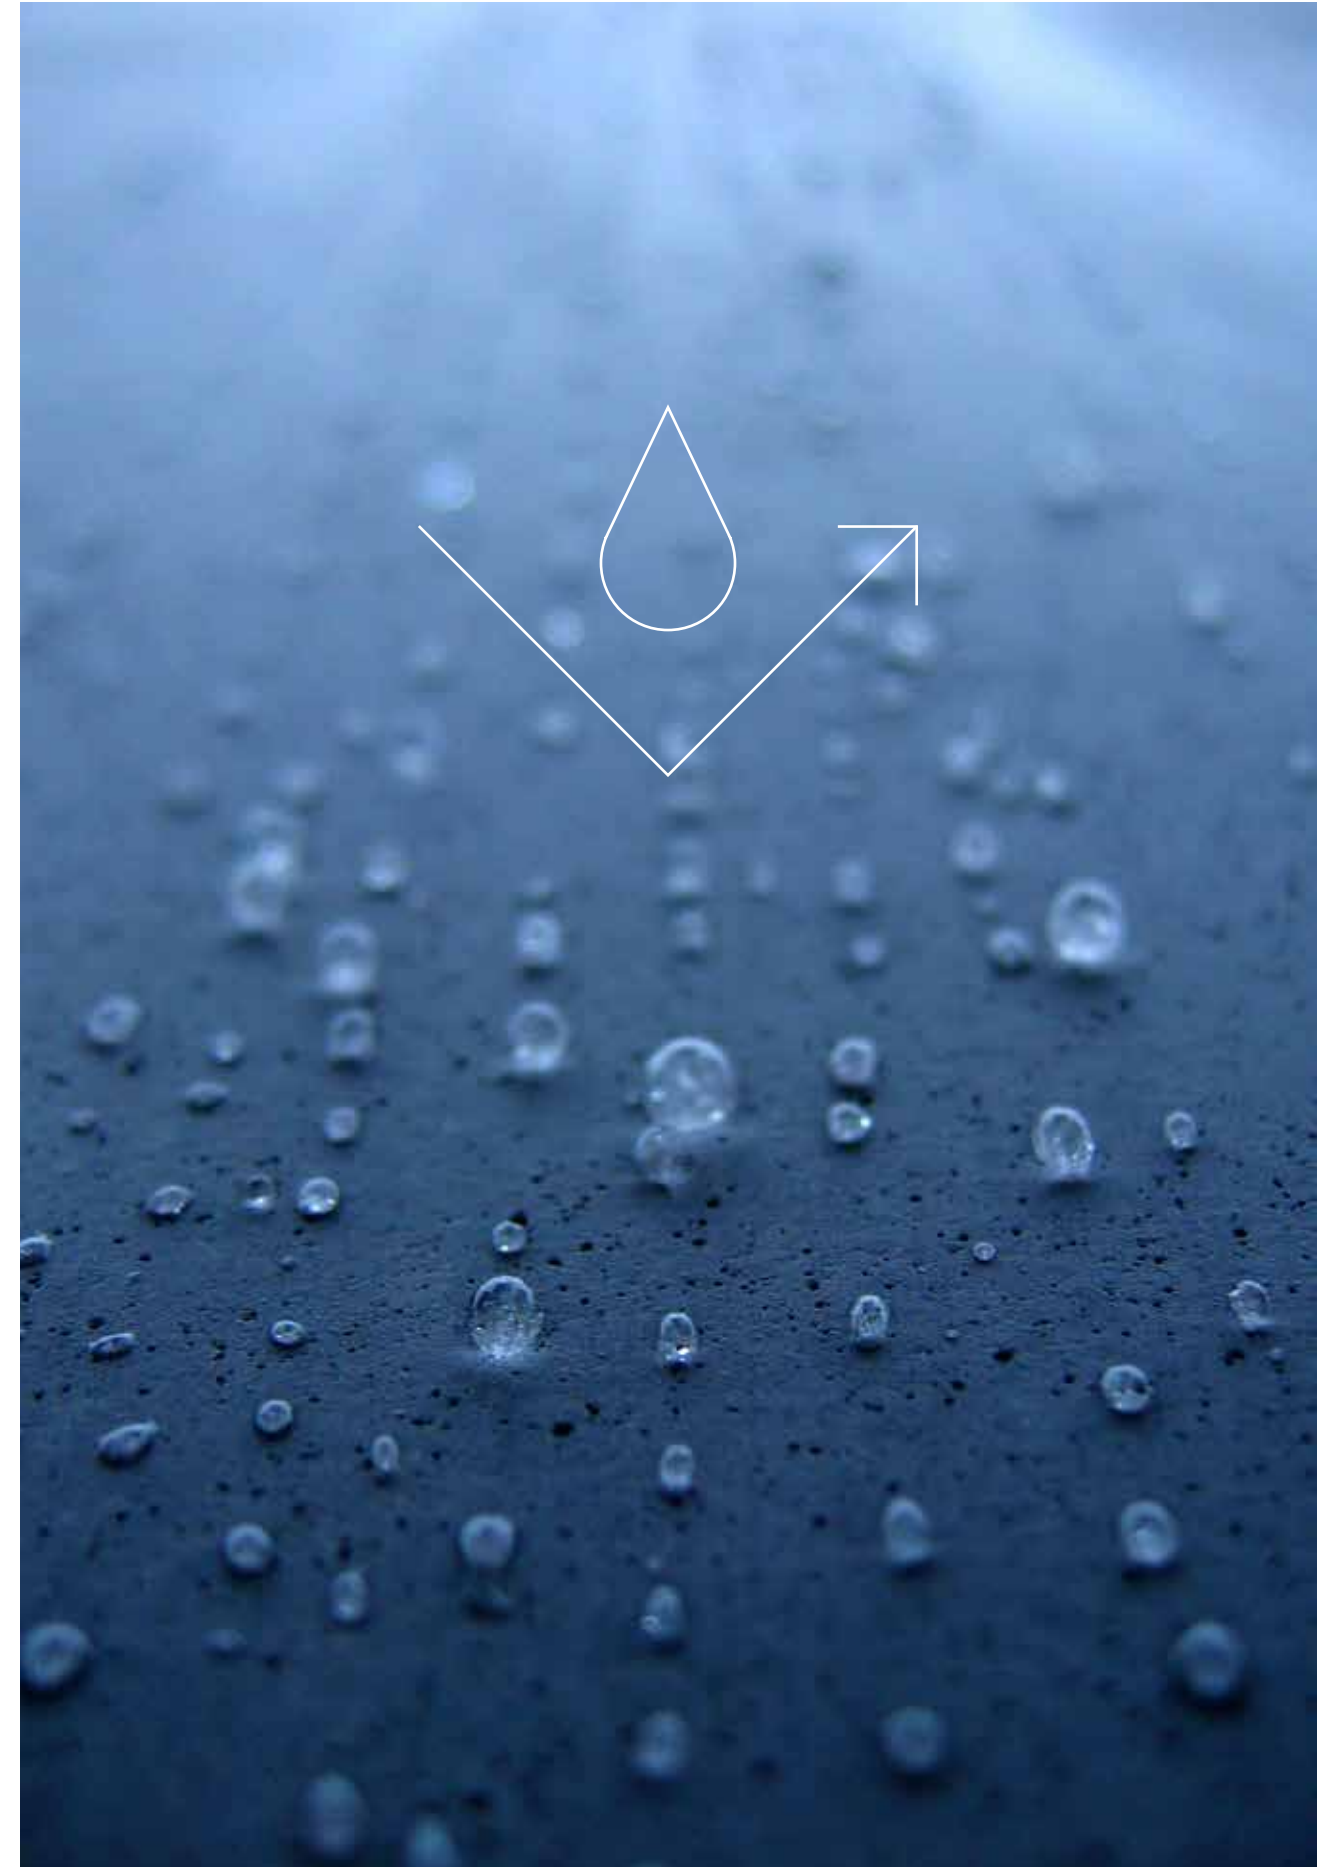

The resulting installation is a floating floor that stabilizes itself through interactive forces generated through the attachment of adjacent tiles, while exponentially building as the floor coverage increases.

* See tandus-centiva.com for all installation methods.

Powerbond® Cushion installations utilizing #54 Seam Weld or C-XL Water-based Seam Sealer will no longer require MVER testing or RH testing, provided that no free liquids are present and that no moisture-stained concrete is evident. Testing for pH is still required for all Powerbond Cushion and must be 9.0 or less.*

* In the event that free liquids and/or moisture-stained concrete are observed, a full assessment of the concrete substrate is required per the installation instructions.

MOISTURE MANAGEMENT

Tandus Centiva is a name synonymous with industry-leading innovation, continuous improvement and products that demonstrate excellent performance. Developed in 2010, our powershield® product became a flooring solution for concrete substrates with a moisture vapor emission rate (MVER) of up to 10 lbs. and a relative humidity (RH) of up to 90%.

powershield is an underlayment intended for use with Tandus Centiva modular tile for moisture remediation.

powershield can be used over concrete flooring substrates in the following conditions:

- Moisture Vapor Emission Rate (MVER) up to 10 lbs
- Relative humidity of 90%
- pH up to 9

powershield offers the same technology for our modular tile that is found in the revolutionary closed-cell cushion of Powerbond®. This product is also recommended for Powerbond installations for added cushion.*

* When powershield is properly installed over concrete slabs according to previously mentioned specifications with Tandus Centiva modular tile, all applicable Tandus Centiva Modular Limited Warranty terms apply.

[illegible][illegible]

We are more than just a flooring company.

We are craftsmen, designers, makers and dreamers working together with a greater purpose.

Our mission goes far beyond simply covering floors.

We are innovators and pioneers of sustainable solutions, always reaching further to bring our clients' visions to life.

We champion creativity, thrive on collaboration and never stop dreaming.

Yes, we make beautiful floors, but that's just the beginning.

We are Tandus Centiva. Creators and thinkers with endless innovation.
